Responsible Students, Responsible Citizens

P8 Campaign against vandalism in schools

Part 1

Students are asked to think about the causes and effects of vandalism both within and outside schools. They will carry out a research project on acts of vandalism and micro-vandalism. They will think about what they themselves can do to fight it as individuals and as a community. They will show their findings in a powerpoint presentation.

- Students research what vandalism is and different forms of vandalism (vandalism, minor vandalism, causing danger to the public etc.)
- Students research causes of vandalism
- Students research effects of vandalism
- Photos of vandalism inside school and brief description
- Photos of vandalism outside school in their hometown and brief description
- Students think about what they can do as single individuals to stop vandalism
- Students think about what they can do as a community to stop vandalism
- Students research articles in national Constitution and Civil Code Book about sanctions and/or penalties or fines for acts of vandalism
- Students describe two recent acts of vandalism in their country (they say where and when it took place, what happened, if the vandals were found and what penalty was given and a final personal comment)

Part 2

Students think about how they can preserve school premises, equipment and furniture. They themselves can restore, refresh and revive a run-down or neglected room or small area of the school with recycled or second-hand materials.
